## SUMMARY

---

- Over 8 years' experience as a web developer
- Over 2+ years has been working on Adobe Experience Manager(AEM).
- Ability to visualize high level project concept and materialize UI flow, produce implementation plan documentation for team members

## WORK EXPERIENCE

---

### ***Klick Health***

Nov 2019 - Nov 2022

Senior Web Developer | Toronto, ON, Canada

Developed UI on projects based on React and on Adobe Experience Manager.

- Developed websites using HeadlessCMS(Contentful) and JAMSTACK methodology.
- Created React application with full user experience redesign to release a beta MVP in about 4 months.
- Creating GitHub Pages allowing customer repositories to be hosted directly.
- Collaborating with internal stakeholders on developing AEM Campaign and AEM Sites projects for Marketing teams.
- Developed the custom components, templates and modified existing templates using HTL according to the designs.
- Building new and maintaining existing email campaigns in AEM for healthcare industry clients.
- Analyze, Design and Developed style systems with ui.frontend modules so authors can apply styles to the components.
- Mentored 4 team members on Adobe Campaign and Adobe Sites with internal implementation processes.
- To liaison with QA and Editorial teams to resolve technical issues on React Applications as well as Adobe campaign and Experience Manager.

**Technology:** Javascript, HTML5, CSS3, React, SCSS/SASS, Flexbox, HeadlessCMS, Gatsby, Contentful, GitHub, GitHub Pages, AEM6.5, AEM Sites, AEM Campaign, HTL

- Creating UI according to the requirements and designs provided.
- Create and maintain new and existing Wordpress websites.
- Customize Wordpress themes as per the requirements.
- Analyze requirements and present possible solutions to the clients which helps them in their decision making process.
- Deployment of the websites on client's server after finishing the development.
- Helping migration client to setup their websites on Wordpress from other platforms.

**Technology:** Javascript, HTML5, CSS3, React, Netlify, NetlifyCMS, Snipcart, JAMSTACK, GRAPHQL, GatsbyJS, Contentful, Wordpress, TailwindCSS, NodeJS

## **VibeHCM**

Apr 2015 - Mar 2019

Vibe Product Analyst | Saskatoon, SK, Canada

Configure clients on HCM as per the requirement documents. Create a dev tool based on requirement document so other developers can do the branding of their clients.

- Creating branding for various clients of the company.
- Working in implementation team brings up lots of configuration work on my plate on day to day basis along with branding.
- Working closely with client and PM to implement Application Tracking Systems(ATS).
- Providing support to the team in terms of design queries.
- Creating documentation for team on various client configuration to help new team members to understand complex configuration processes.

**Technology:** Javascript, HTML5, CSS3, React, SASS, LESS, ORACLE, SQL, JIRA

## **MomentumMedia (Sterling Publishing)**

Mar 2014 - May 2015

Front-end Developer | Sydney, NSW, Australia

Building and maintaining new and existing Websites. Refreshing old websites with new UI

- Creating visually appealing websites and interfaces.
- My role concentrates more on front-end side development, which includes creating, editing or modifying templates for a Joomla and WordPress CMS.
- Develop responsive websites and make sure it works seamlessly across all devices.
- Conducting observational user testing or reviewing designs against usability heuristics.
- PSD to HTML Conversion at pixel accuracy.

**Technology:** Javascript, HTML5, CSS3, SASS, Wordpress, Joomla, SQL
